

Sardar Patel University
Programme Structure
Bachelor of Commerce (B.Com) Banking, Financial Services and Insurance (BFSI)
Under Apprenticeship Embedded Degree Programme (AEDP)
(As per National Education Policy-2020)
(Three- and Four-Year Course)

Programme Objectives :

1. To integrate academic learning with structured apprenticeship in the banking and financial services sector, fostering experiential knowledge and workplace readiness.
2. To nurture confident, industry-ready graduates by building essential professional competencies in customer relationship management, financial operations, retail banking services, and effective communication.
3. To encourage holistic development through value-based education, sustainability awareness, and interdisciplinary learning relevant to financial services and inclusive banking.
4. To enable students to become lifelong learners, equipped to adapt, grow, and pursue higher studies or diverse career paths in banking, insurance, and financial services in a rapidly evolving economic environment.

Programme Outcomes:

By the end of the program, graduates will be able to:

1. Demonstrate foundational and specialized knowledge in banking operations, financial products, risk management, customer relationship practices, and insurance services.
2. Apply professional competencies in branch banking, customer onboarding, KYC compliance, digital banking platforms, and financial product handling through hands-on apprenticeship experience.
3. Integrate classroom concepts with live industry exposure, showing proficiency in banking technologies, service operations, regulatory frameworks, and client servicing within the BFSI ecosystem.
4. Exhibit clear and persuasive communication, leadership, and teamwork skills to collaborate effectively in cross-functional financial teams and client-facing roles.
5. Demonstrate ethical responsibility and an entrepreneurial mindset by incorporating financial inclusion, transparency, and innovation in banking and insurance ventures.
6. Utilize critical thinking, data analytics, and fintech tools to assess financial challenges, mitigate risks, and make informed, practical decisions in dynamic BFSI environments.

B.COM BANKING, FINANCIAL SERVICES, AND INSURANCE**1st SEMESTER****Accounts Assistant – DSC – I****Course Code: B.C.R-101****Exam Duration: 3 Hours****Marks: 70****Lectures: 60**

Course Objectives: This course aims to provide foundational knowledge of accounting principles, processes, and practices used in recording and reporting business transactions. It familiarizes students with the double-entry system, journal and ledger preparation, trial balance, and the preparation of final accounts with basic adjustments. The course emphasizes accuracy, clarity, and compliance with standard accounting conventions, enabling learners to understand and apply accounting principles in day-to-day business operations.

Course Outcomes: After successful completion of this course, learners will be able to understand the basic concepts and objectives of accounting and distinguish between bookkeeping and accounting practices. Apply the double-entry system to record business transactions in journals, subsidiary books, and ledgers. Prepare trial balances using appropriate methods and identify types of accounting errors. Prepare final accounts of non-corporate business entities, including necessary adjustments for accurate financial reporting.

Units	Contents	Hrs
Unit – I Introduction to Financial Accounting & Reporting	Meaning, Objectives, Duties, and Requirements of an Account Assistant. Basic Accounting Concepts and Accounting Terminologies, bookkeeping, Elements of Financial Statement, Bank Reconciliation Statement, Trial Balance, Trading and Profit and Loss Account, Cash flow statement, Ratio Analysis & Balance sheet.	10
Unit – II Labour Laws and Payroll Accounting	Contract Act, Law of Payment of Wages Act & Minimum Wages Act, Law of Employees' State Insurance Act, Applicability of ESIC, Provident Fund Act, Applicability of EPFO, Payment of Bonus Act, Payment of Gratuity Act & Payroll Accounting.	10
Unit – III Heads of Income under Income Tax Act, 1961	Overview of Income Tax, Residential Status, Tax Rate, Heads of Income, Identify the Steps for Computing Total Income, Clubbing of Income, Set off losses and carry forward of losses, TDS, TCS and Advance Tax. Types of ITR Forms, PAN	10
Unit – IV Employability Skills	Communication skills (basic speaking, reading, writing), Workplace behavior (punctuality, discipline, teamwork), Basic computer knowledge (MS Word, email use) Understanding Workplace Ethics & Values Importance of honesty, integrity, and responsibility. Respect for colleagues (including gender sensitivity & PwD inclusion), Basic civic sense and workplace rules. Reading & Writing in English: Emails, Notes, Instructions & Simple office letters Digital & 21st Century Skills (Basic) Use of internet for work & Basic digital safety Workplace Safety &	10

	Legal Awareness Basic employee rights, Awareness of POSH Act 2013 & Reporting issues at workplace (simple procedure). Basic Financial Literacy: Understanding salary (basic pay, allowances), Managing income and expenses & Importance of saving. Introduction to Entrepreneurship (Basic) Meaning of entrepreneurship, Simple idea of small business & Basic awareness of funding (loans, savings). Apprenticeship & Job Search Basics: How to search for jobs, Basic introduction to Apprenticeship India Portal & Preparing simple resume.	
Practical	Computerised Accounts by using any accounting software, Creating Accounting Ledgers and groups, Vouchers Entry, Generating Reports, Backup and restore data by using Tally and Other accounting Software.	20
Tutorial		10

Name of Course	Credits	Structure of Each Paper	Division of Marks	Paper Pattern for End-Semester Examination	Duration of the Examination
DSC	4	There shall be Four Modules (I, II, III, IV) in the syllabus of each paper.	The evaluation shall be Continuous and Comprehensive Evaluation (CCE). Paper in the Course shall be of 100 Marks. Internal Assessment = 30 Marks End-Semester Examination = 70 Marks INTERNAL ASSESSMENT Attendance = 05 Marks Class Test = 15 Marks Assignments and Presentations = 10 Marks	There will be 5 Parts (A, B, C, D, E) and the examiner will set 9 Questions in total from all the Modules (I, II, III, IV) in total and each question shall carry 14 Marks. Part- A will have two questions from Module I of the syllabus and the students have to attempt any one. Part- B will have two questions from Module II of the syllabus and the students have to attempt any one. Part- C will have two questions from Module III of the syllabus and the students have to attempt any one. Part- D will have two questions from Module IV of the syllabus and the students have to attempt any one. Part- E will have 10 Short Answer questions from all Module (I, II, III, IV) and the students have to attempt any 7 in total carrying 2 Marks each.	3 Hours

- **Pass Marks of each subject:** 40 % Aggregate and minimum 35% in each individual component (Term End Exams, Practical, Internal Assessment (IA)) of each subject.
- The class test of all types of courses must be scheduled once 50% of the syllabus is covered.
- The candidates may be permitted to use Ordinary Calculators (Not Scientific) during the examination.

B.COM BANKING, FINANCIAL SERVICES, AND INSURANCE**1st SEMESTER****Business Statistics– DSC – II****Course Code: B.C.B. 102****Exam Duration: 3 Hours****Marks: 70****Lectures: 60**

Course Objectives: This course is designed to introduce students to the fundamental concepts and applications of statistics. It aims to develop an understanding of various types of data, their classification, and methods for effective collection and presentation. Emphasis is placed on equipping learners with practical knowledge of statistical tools such as measures of central tendency and dispersion, which are essential for summarizing and interpreting business data. The course also focuses on time series analysis and forecasting techniques, enabling students to identify trends and seasonal patterns for informed decision-making.

Course Outcomes: After successful completion of this course, learners will be able to Define key concepts of statistics, distinguish types of data, and explain their applications in business and retail environments. Collect, classify, and present business data using frequency distributions, diagrams, and graphs. Calculate and interpret statistical averages to derive business insights from retail datasets. Measure and compare data variability to evaluate business risk and performance. Analyze time series data to identify trends and seasonal patterns, and apply forecasting techniques for business decision-making. Collaborate effectively to solve statistical problems, interpret business data, and communicate insights using appropriate statistical terminology.

Units	Contents	Hrs
Unit – I Descriptive Statistics	Meaning and scope of Statistics, concepts of a statistical population and sample from a population, qualitative and quantitative data, discrete and continuous data, Measurement scales – nominal, ordinal, ratio and interval scales. Collection and Presentation of Data: Primary and Secondary data, Methods of collection for primary data, sources of secondary data. Classification of Individual data: ungrouped and grouped frequency distribution. Method of classification: inclusive and exclusive, open-end classes, cumulative frequency distribution and relative frequency distribution. Diagrammatic and graphical representation of data: Pie diagram, line diagram.	15
Unit – II Measures of Central Tendency	Types of Averages, Mean, Median (Excluding missing frequency), Mode (including grouping table method, empirical relationship method)	10
Unit – III	Meaning and Objectives of measures of dispersion – Absolute and Relative measures, Range, Quartile	10

Measures of Dispersion	deviation and its coefficient, Standard deviation and coefficient of Variations, Problems on Direct method.	
Unit – IV Time Series Analysis	Trend Analysis: Moving averages and trend lines, Seasonal variations and seasonal decomposition Forecasting Techniques: Exponential smoothing methods, Time series models(ARIMA)	15
Practical	Practical uses of Statistics in field of Banking, Insurance, Education and Finance etc.	20

Skill Development Activities

- Data analysis using various averages
- Problem-solving exercises and assignments on statistical concepts

B.COM BANKING, FINANCIAL SERVICES AND INSURANCE**1st SEMESTER****Management Insights and Applications- SEC – I****Course Code: B.C.B. 104**

Exam Duration: 2 hrs	Marks: 50	Lectures: 45
---------------------------------	------------------	---------------------

Course Objectives: This course is designed to provide students with a foundational understanding of management principles and their practical applications in organizational settings. It introduces the evolution, nature, scope, and significance of management as both a science and an art. The course aims to equip learners with insights into core managerial functions. Through the study of key thinkers like F.W. Taylor and Henry Fayol, students gain a conceptual framework of classical and modern management principles. The course also emphasizes effective decision-making, motivation, leadership, and coordination techniques essential for ensuring organizational efficiency. Ultimately, it aims to develop analytical and leadership skills necessary for managing people and processes in dynamic business environments.

Course Outcomes: After successful completion of this course, learners will be able to Describe the evolution, principles, and nature of management and distinguish management as a science, art, and profession. Explain the processes and importance of planning, organizing, and staffing, and differentiate between various organizational structures. Analyze the significance of direction, motivation, and leadership, and apply relevant theories and techniques to practical situations. Evaluate coordination and control mechanisms within organizations, and understand how to ensure effective implementation of control systems.

Units	Contents	Hrs
Unit-I Introduction to Management	Introduction, Meaning and Definition of Management, Evolution of Management Concept, Nature, Characteristics, Scope and Function of Management, Management as a Science, Art and Profession, Management Principles: FW Taylor and Henry Fayol.	10
Unit-II Planning, Organisation and Staffing	Meaning, Definition, Features and Importance of Planning, Planning Process, Types of Plans, Decision Making Process and Types of Decisions, Nature Need and Importance of Organisation, Types of organisation Structure: Formal and Informal, Meaning, Definition and function, Staffing Process, Functions of Staffing.	15
Unit – III Directing, Coordinating and Controlling	Meaning, nature, principles, and importance of effective direction; motivational theories and techniques; meaning, characteristics, and nature of leadership; leadership styles and theories. Meaning, definition, need, and importance of coordination; types and techniques; principles and steps. Importance, process, and limitations of controlling; principles and essentials of an effective control system.	20

Course Contents

B.C.B 304 Apprenticeship in Industry

Recommendations:

1. The course is aligned with NEP, 2020, so it should be introduced with the adoption and implementation of NEP, 2020 only.
2. Comprehensive infrastructure having E-Classrooms and specialised exclusive faculty for teaching and mentoring this programme, like Professor of Practice and Industry Experts required in respective HEI.
3. The course is suitable for the self-financing mode.
4. Clear and well-defined role, responsibility, and accountability of CRISP/Mediating Apprentice Training Agency, regarding industry apprenticeship to ensure the mental, financial, and physical health of students through a proper contract between CRISP/Mediating Apprentice Training Agency and the Department of Education/GoHP.
5. UGC/Competent Body of Governing Higher Education of Universities in India's guidelines on the AEDP programme will be final and followed in spirit while dealing with any matter or dispute in this programme.
6. Tripartite Agreements mentioned in the AEDP programme should be signed at the University/Department of Education Level on behalf of all HEIs running this UG Programme to create a comprehensive umbrella of industries providing apprenticeship.
